

Rhyming Chutes and Ladders Board Game

Thanks so much for stopping by at the Enchanted Schoolroom, and downloading this file. I hope you have tons of fun playing this fun twist on the classic Chutes and Ladders Game!

The game is intended to reinforce rhyming words, higher numbers, counting, taking turns....

The reason I chose these pictures? Because my budding rhyme-r is familiar with these words.

Please see this post: <http://enchanted-schoolroom.blogspot.com/2013/05/montessori-inspired-rhyming-work-and.html>

Rules are simple.

Be the first to move your playing piece from square one to square 100 on the game board – but watch out! If the square has a picture on it, you have to come up with a rhyming word. Get it right, and you'll be rewarded by a ladder-climb up the board. Otherwise, you might have to take a slide down the chute!

If your player is not yet ready for the consequence of a slide down the chute, you can come up with your own. Maybe he has to do the silly dance, or she needs to hop on one leg five times!

Having fun is an important requirement as well. And coming up with your own rules – bonus.

Rhyming words:

Cat, Pie, Goat, Shell, Snake, Fish, Bed, Sad, Book, Hen, Sheep, Fox, Bee, Cup, Bear, Car, Swing, Cone, Fan

Rhyming Chutes and Ladders Board Game

A 10x10 board game grid with numbers 1 to 100. The board features various illustrations and game elements:

- 100:** A yellow bell with a green leaf.
- 98:** A red folding fan.
- 95:** A red traffic cone.
- 90:** A cartoon boy on a red skateboard.
- 81:** A red sports car.
- 78:** A brown bear's head.
- 73:** A white cup of coffee on a saucer.
- 68:** A yellow and black striped bee.
- 65:** A brown fox.
- 60:** A white sheep.
- 51:** A brown chicken.
- 44:** A blue sad face.
- 47:** An open book.
- 39:** A wooden chair.
- 31:** A black and white fish.
- 25:** A brown seashell.
- 28:** A green cartoon dinosaur.
- 18:** A white goat.
- 5:** An orange and white kitten.

The board is divided into blue and white squares. Ladders and slides are placed between numbers to indicate movement rules. For example, a ladder connects 1 to 38, and a slide connects 98 to 99.
